Additional information – call scientific and research department
and e-mail: nik@donnaba.edu.ua

Engineering has its origin in the Project Reform of Education THru INternational Knowledge exchange, funded with support from the European Commission.

This Master is designed for students and professionals with scientific backgrounds. It is directed to civil engineering students, as well as for improving the formation of municipal construction and municipal economy engineers.

The basic prerequisite is to hold an undergraduate Degree from a European Higher Education Area (EHEA) university or equivalent from a non-EHEA university with access to Master Degrees in their own academic systems

At least you have to accredit a B1 English level to enroll.
